

ergo handles

ergo I in detail

▶ Ergonomic

The ergo I fits perfectly in the hands of your customers, they make steering and maneuvering of your shopping carts so much easier especially when fully loaded. The ergo I is also antistatic to avoid shocks through electrostatic charge. Antistatic wheels are no longer needed.

▶ Modular

The modular design of the ergo I offers a choice of creating the handle matching your individual needs. As an option we are offering the handle only or in combination with an advertising clip.

▶ Easy

With a simple but effective suction cap, it is easy to exchange the label in just a matter of seconds.

▶ Ready

The ergo I is ready to be fitted with systec's latest innovation: the liveTec mobile smartphone holder. liveTec mobile enables your customers to attach their smartphone to the ergo I so that they can easily and securely use their smartphones while shopping.

ergo II in detail

► All in

The ergo II comes fully equipped with cup holder and shopping list holder. With its innovative design the ergo II combines sophisticated ergonomics with functional extras and cares for a comfortable shopping experience.

► Quick

No matter if private labels or third party advertising, you will always stay up to date with your advertising plan. Our special demounting tool makes the exchange of labels a matter of seconds.

► Antistatic

The ergo II comes with a built in antistatic function which effectively prevents electrostatic shocks. Antistatic wheels are no longer needed.

► Future-Proof

The ergo II is also ready to be fitted with systec's latest innovation liveTec mobile. Mobile applications such as self scanning and mobile payment can be easily used. Products can be scanned even with the smartphone locked in the docking station. Information such as adverts, instore navigation or special offers can be optimally displayed on the smartphone screen.

Our center for new ideas and market success: systemec's head office in Puchheim near Munich

The Number 1 for Cart Management

Founded in 1974, systemec developed the first patented coin lock for shopping carts in 1981. Since that date, systemec has become the global and technology leader in this field. Its products range from coin deposit locks and antistatic handlebar systems, cart advertising systems to child safety and containment systems for shopping carts. The newest innovation from systemec is liveTec mobile – the new smartphone docking station for shopping carts. It provides a secure and convenient way of using smartphones in the store.

systemec is the supplier of all leading shopping cart manufacturers and exports its products to more than 50 countries.
